Next, let's look at the list of "criteria" - situations in the origin of which on the games of the BetgamesTV provider we are given a signal to the Telegram Bot.

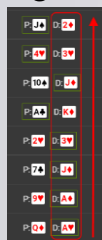

War of Bets:

1. 8 did not fall out 38 hands.
2. A draw did not fall out of 100 hands
3. Big odds did not fall out 25 hands:

P.S. A large odds is when 25 HANDS OF THE FOLLOWING SITUATIONS DO NOT OCCUR AT THE SAME TIME:

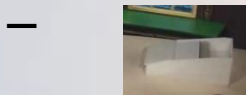

- a) 8 did not drop 25 hands
- b) 3/2, 3/3, 3/8 did not fall out in front of the three
- c) K / A, K / K, K / 8 did not fall out in front of the king
- d) there is no draw 25 hands

In a situation **where the combination of these factors does not fall out 25 hands in a row, a signal is given.**

1) Vertical 8 did not fall out 100 hands (vertical is such a bet move, see picture)

The vertical can be "by player", "by dealer", from bottom to top. Because the cards go from left to right, from bottom to top is the course of the game itself. When, regardless of the end / beginning of the **shoe**, such a situation accumulates, the Eight has never fallen out - a signal is given.
